FIAC Paris Is Back And Here Are The Artworks We're Eyeing

This is the next stop on the international art fair circuit

October 16, 2019

The next stop on the international art fair circuit? Foire Internationale d'Art Contemporain (FIAC) kicks off tomorrow until 20 October, promising a spectacular mix of art and moments that reward deeper thought and meaning. Among the highlights are works by icons Yayoi Kusama and Némo Digital Arts Biennale, which raises the question, "Is the human race destined to disappear?" What do you think?
