NO MAN'S LAND: Women Artists from the Rubell Family Collection focus on and celebrate work made by more than a hundred female artists of different generations, cultures and disciplines. These artists will be represented by paintings, photographs, sculptures and video installations that will entirely occupy the Foundation's 28-gallery, 45,000-square-foot museum. Some galleries will contain individual presentations while others will present thematic groupings of artists. Several installations have been commissioned specifically for this exhibition.

In order to present the exhibition's scope and diversity the Foundation will rotate artworks on view throughout the course of the exhibition, presenting different artists at different times. All of the artworks in the exhibition are from the Rubells' permanent collection.

A fully illustrated catalog with essays accompanying the exhibition is available via our bookstore ([/bookstore/no-mans-land-women-artists-from-the-rubell-family-collection-detail](#)).
