

For Immediate Release

Sister presents *Video Journeys* at Cottage Home

May 30 - July 2, 2009

Sister is pleased to present "Video Journeys" at Cottage Home. For the exhibition, ten sculptors were invited to present ten video works. The videos, all dealing with mass media, were given to the sculptors with no further instruction. The varying sculptural presentations or "viewing stations" combined with the videos work to address the increasingly complex and complicated issues of reproduction, authorship, and the often nebulous delineation between mainstream movies, art films and video art.
